[***Bangor***]— Green Acres Kennel Shop will be the site of a seminar on Pet Nutrition on Saturday, March 11th, starting at 9:30AM. A second session will be offered at 1PM if the first session is filled. The seminar will focus on nutrition as the foundation of good health. It will examine the overwhelming and often contradictory information on what type of diet is the best for the average dog and cat. We will examine the very fundamentals of our pets nutritional needs and how those needs are met by the various types of diets that are fed today (homemade, home prepared raw, commercial raw, commercial dry, and commercial canned). We will then use the Green Acres Kennel Shop food comparison database to look at several types of foods including their advantages, disadvantages, risks and their real costs. At the conclusion of this presentation you will be better equipped to select a food for your own pet.

Seating for the seminar is limited, so we do suggest people sign-up in advance. There is no charge for the seminar, but we do ask that people reserve their seat with a minimum $5 donation to the Bangor Humane Society Shed and Emily Fund. Checks may be sent to Green Acres, who will forward them to BHS after the seminar.
